PROJECTS

Recipe Book

Web application where you can manage recipes and create a shopping list with the ingredients you'll need. It has an auth module in order to control the recipes and shopping lists.

<https://recipe-book-swart.vercel.app/auth>

Quote Generator

Application with Next JS on the front-end and AWS Amplify on the back-end. It makes an API call and generates a downloadable letter with a motivational phrase and its author.

<https://prod.d3l8pp9jp6dwmx.amplifyapp.com>

SKILLS

HTML 5, CSS 3/SASS, React, Angular, Next JS, Javascript, Typescript, Git and GitHub, Bootstrap, Tailwind CSS, AWS, Figma, Firebase, MongoDB, Node JS, SQL.
