## WORK EXPERIENCE

---

### Grupo Lafise

Oct. 2022– Nov. 2022

*Front-End Intern*

*San Pedro, Costa Rica*

- Lafise is a banking and insurance company located across Latin America, USA and Spain.
- As an intern, my core responsibility was to develop React components in order to make the website development faster. Another responsibility of mine was the proper creation of landing pages for the company using the components I developed. While I was at that internship, I had to develop teamwork and assertive communication skills. I worked with some Nicaraguan and some Costarican coworkers developing those skills.
- Some of the technologies used were React, NextJS, AWS, SASS, Bootstrap, Git and the SCRUM methodology.

## EDUCATION

---

### Fidelitas University

2023 - Present

*Computer Science - Computer Systems Engineering*

*San Pedro, San José, Costa Rica*

- As a graduate I'm able to develop research skills, solve technological problems, and manage computer systems. I also have acquired knowledge in designing and maintaining mobile and web applications and relational databases.
- Some of the most important courses are: Web Applications and Patterns Development, Relational Database Design Fundamentals, Data Structures, Software Documentation, Quality Assurance

### Colegio Vocacional de Artes y Oficios

2020 - 2022

*Software Development Technician*

*Taras, Cartago, Costa Rica*

- High School education with an associate degree in software development. As a graduate I'm capable of designing multi platform software solutions while developing computational thinking and decision making skills to improve information analysis.
- Some of the most important courses are: Programming, Relational Databases, UI Design, TIC's and TI Support.

## PROJECTS

---

### Cash Controller

2024

- An expense tracker system developed for the web. You can register all your expenses, as well as your incomes, to get your current balance and see through graphics how much money is going in vs going out, some of your top categories on what you are spending the money and more.
